

Work Report of Hafis Jafoor V - April 2024

April 1 to April 30

- AITMS New Website Development: Worked on the AITMS new website, completing approximately 50% of the project. Developed 20 pages(front end) of the AITMS website with structured design and images optimized for all media screens. Content and image completion reached 80% on current status of the project.

- Maintenance and Updates:
 - Heritage Developed Websites: Conducted maintenance, updates, and issue resolution for previously developed heritage websites. Reuploaded the entire project due to technical and security issues arising from ads and traffic.
(<https://sticknobills.pythonanywhere.com/>)
 - Saisidd Developed Websites: Performed maintenance, updates, and issue resolution for Saisidd developed websites, similarly reuploading the project due to technical and security concerns from ads and traffic.
(<https://saisidd.pythonanywhere.com/>)
- Advertisement Management(Indeed Job Posts): Managed advertisements for 7 job posts across 3 Google accounts on Indeed. Due to reports and security concerns related to specific keywords, all posts were flagged and moved to a restricted position. Communicated with HR regarding this issue.
- Account Recovery:Successfully restored access to all accounts linked to sticknobillshafis@gmail.com across multiple platforms. Following security concerns due to posting ads with specific keywords on Indeed, the accounts were banned. This matter was promptly communicated to HR beforehand, and the ads were posted as a crucial attempt. Subsequent efforts were undertaken to address the issue, with the exception of the Indeed platform.
- Presentation Development(Bon Voyage): Created a PowerPoint presentation introducing Germany for presentation to the Bon Voyage team.
